"Decca Navigator News"**

Compiled from the complete set held by Walter Blanchard, wblanch@ntlworld.com

Prior to Decca News No. 1, there was a news-sheet type of publication called "The Decca Navigator Monthly News" which did not have a list of contents. The only one I have is numbered "Issue 2" with a date of April 1949.

Page Sizes: Decca News was 246 mm high and 185 mm wide.
Decca Navigator News was the same up to Issue 20
then 265 x 208 from Issue 21 to Issue 56,
finally 297 x 210 (A4) from Issue 57 for the remainder.
